

IKARI WARRIORS

General Bonn, Commanding Officer to super commandos Paul and Vince, has been kidnapped by violent terrorists who are holding him captive in their secluded jungle hideout. Paul and Vince undergo a valiant rescue mission, which is where the action begins. The enemy are nasty musclebound characters who traverse the screen either singularly or in pairs, firing their huge bullets at you. You are supplied with machine guns and hand grenades to combat them, and the jungle you cross is littered with all sorts of perilous booby-traps. By capturing an enemy tank, you are in a good position to destroy everything in sight and fulfill your mission.

THE STORY SO FAR

General Alexander Bonn, C.I.F US forces in Central America, has been seized by a band of revolutionaries and held captive in his own headquarters. Before his final capture, he relayed a mayday which you and your buddy picked up. Your plane crash-lands in the dense jungle some distance from the headquarters. After deciding whether to go it alone or attempt the rescue together, you set off. You are deep in guerilla territory. On all sides gather trained marksmen and combateers, determined to stop you. It soon becomes apparent that you lack the supplies to win, but win through you must. Ambush enemy tanks, and use them yourself. Collect fuel grenades left by the enemy as they retreat. Show no mercy, for you are the Ikari Warrior.

IMPORTANT NOTES

When Ikari Warriors is running the power light will go out. Don't panic, this is normal.
