THE FACTS OF THE CASE: This family runs a small aquarium with a dolphin as the main act. For some reason this dolphin is really popular. Lately lots of different people have been hanging around the place. Some of them have even tried to buy the dolphin! Then one night, a bunch of people tie up the owner and steal the dolphin right out of the pool. Now a dolphin is a hard thing to hide. but the police can't find a trace of her anywhere! And there's something about a missing diamond a few towns away. It all sounds pretty fishy to me.

The Tabascos

PETE, MIKE AND SANDRA TABASCO

The Tabasco family has lived in Costa Villa for ten years. Dr. Sandra Tabasco is a marine biologist and expert on sea mammals. Sandra is almost finished with a research project on dolphin intelligence, but she also lectures part-time at Costa Villa University. Pete. Sandra's husband, runs the business side of the Tabasco Aquarium. He knows that the proceeds from the aquarium are the only way to pay for Sandra's work. Mike. the Tabasco's thirteen year old son, is in charge of the dolphin show at the Aquarium. He helped Sandra train Lily to do tricks. Mike considers Lily his best friend in the world.

Background Notes:

Lly

THE DOLPHIN

Lily is a female bottlenose dolphin who has been a happy. loving member of the Tabasco family for nine years. When Lily was young, she was caught in a net by fishermen and the Tabascos took her in. The first thing that Lily learned was to come when a metal bar was hit by the side of the pool. Now she gives daily shows at the Tabasco Aguarium. Some of her fancy tricks include tossing a basketball into a net. jumping through hoops, grabbing a hat from a high pole, and giving Mike Tabasco rides on her back. Dr. Sandra Tabasco also uses Lily for her research on dolphin intelligence. The proceeds from the performances pay for both Lily's room and board and for Sandra's research.
