

HENRIETTA'S BOOK *of* SPELLS

Quick-Start Guide

PC, AMIGA, ST

LANDER

© LANDER SOFTWARE 1991

Welcome to **HENRIETTA's BOOK Of SPELLS**. We know you are anxious to get started, but please spare just a few minutes to study these notes. *It could save time and frustration later!*

Before you start - README

Every **LANDER** program supplied on disc has a **README** file which may contain tips, suggestions, ideas and information on changes etc made after the documentation was printed.

Check this file before running the program or making a working copy. *Do it this way:*

IBM PCs and compatibles

- 1 Insert your "**SPELLS**" master disc into a disc drive.
- 2 Make this the current drive.
- 3 Type **readme** then press <Enter>.
- 4 To print out the contents of the **README** file, type **copy readme.txt prn** then press <Enter>.

AMIGA

- 1 Load the program following the instructions below.
- 2 Press <F1> at the loading screen to view the **README** file.

ST

- 1 When at GEM, insert your "**SPELLS**" master disc in drive <A>.
- 2 Double click on <A>.
- 3 Double click on <**README**>.
- 4 Click on '**SHOW**' to view document or '**PRINT**' to print it out.

Making a working copy

Your program is protected in a special way which permits maximum flexibility with the minimum of fuss. You can make working copies of all discs in the usual way, something which we strongly recommend. If in doubt, please refer to your computer manual. However, each time you want to run the program, you must follow the procedure set out below.

Loading instructions

IBM PCs and compatibles

If you have a hard disc, create a suitable directory and copy all files from your "**SPELLS**" master disc(s) to this directory.

Loading from a hard disc:

- 1 Make the “**SPELLS**” directory your current directory.
- 2 Type **spells** then press <Enter> to load the program.
- 3 When the Validation Screen appears, refer to “**Validation**” below.

Loading from a floppy disc:

- 1 Insert your “**SPELLS**” working disc into a disc drive.
- 2 Make this the current drive.
- 3 Type **spells** then press <Enter> to load the program.
- 4 When the Validation Screen appears, refer to “**Validation**” below.

AMIGA and ST

- 1 Insert your “**SPELLS**” working disc into the disc drive.
- 2 Reset your computer and the program will load.
- 3 When the Validation Screen appears, refer to “**Validation**” below.

Validation

When the Validation Screen appears, it will ask you to enter a password which the computer has chosen at random from your **Parent/Teacher Guide**. Locate the password, type it and then press <Enter>. The program will now run.

NB: When searching for a password, count only words and headings printed in black. Disregard all coloured words.

Parent/Teacher Section

To access this section, press <Ctrl-T> at the Control Screen. You can then view and alter various settings by pressing the appropriate number or letter or clicking on an icon. Press <F1> or click on the “**Help**” button for help at any stage.

Quitting the program

IBM PCs and compatibles

- 1 You can return to the Control Screen at any time by repeatedly pressing <Esc>.
- 2 At the Control Screen, press <Shift Q>. You will exit the program and return to DOS. *Note that if <Caps Lock> is “on”, you must press only <Q>.*

AMIGA and ST

- 1 You can return to the Control Screen at any time by repeatedly pressing <Esc>.
- 2 Remove the program disc and reboot your computer.

Software Registration

Please complete and return this page to us at the address overleaf to become a Registered User. This will entitle you to full support from our Customer Service Department. You will be sent details of all new LANDER programs likely to be of interest to you and will receive special money saving offers from time to time. You will also have the right to upgrade your program for a modest charge.

Please print using BLOCK CAPITALS throughout
