Sivapalan, T., & Goldberg, D. E. (1987). *The two–armed bandit problem: A bibliography 1952-present* (TCGA Report No. 87002).

Smith, D. J. (1991a). *Task allocation for efficient parallel processing using a parallel genetic algorithm* (TCGA Report No. 91008). Tuscaloosa: University of Alabama. (Master's Thesis).

Smith, R. E. (1988). *An investigation of diploid genetic algorithms for adaptive search of nonstationary functions* (TCGA Report No. 88001). (Master's Thesis).

Smith, R. E. (1991b). *Default hierarchy formation and memory exploitation in learning classifier systems* (TCGA Report No. 91003). Tuscaloosa: University of Alabama. (Ph.D dissertation).

Smith, R. E., Forrest, S., & Perelson, A. S. (1992). *Searching for diverse, cooperative populations with genetic algorithms* (TCGA Report No. 92002). Tuscaloosa: University of Alabama.

Smith, R. E., & Goldberg, D. E. (1990a). *Reinforcement learning with classifier systems:Adaptive default hierarchy formation* (TCGA Report No. 90002).

Smith, R. E., & Goldberg, D. E. (1990b). *Variable default hierarchy separation in a classifier system* (TCGA Report No. 90009).

Smith, R. E., Goldberg, D. E., & Earickson, J. (1991). *SGA-C v1.1: A C-language implementation of a simple genetic algorithm* (TCGA Report No. 91002). (program available on various media by request).

Valenzuela-Rendón, M. (1989). *Two analysis tools to describe the operation of classifier systems* (TCGA Report No. 89005). (Ph.D dissertation).

Goldberg, D. E. (1988a). *Genetic algorithms and Walsh functions: Part I, a gentle introduction* (TCGA Report No. 88006).

Goldberg, D. E. (1988b). *Probability matching, the magnitude of reinforcement, and classifier system bidding* (TCGA Report No. 88002).

Goldberg, D. E. (1988c). *Sizing populations for serial and parallel genetic algorithms* (TCGA Report No. 88004).

Goldberg, D. E. (1988d). *Zen and the art of genetic algorithms* (TCGA Report No. 88003).

Goldberg, D. E. (1989). *Genetic algorithms and Walsh functions: Part II, deception and its analysis* (TCGA Report No. 89001).

Goldberg, D. E. (1990). *A note on Boltzmann tournament selection for genetic algorithms and population–oriented simulated annealing* (TCGA Report No. 90003).

Goldberg, D. E., & Bridges, C. L. (1988). *An analysis of a reordering operator on a GA–hard problem* (TCGA Report No. 88005).

Goldberg, D. E., & Deb, K. (1990). *A comparative analysis of selection schemes used in genetic algorithms* (TCGA Report No. 90007).

Goldberg, D. E., Deb, K., & Korb, B. (1990). *An investigation of messy genetic algorithms* (TCGA Report No. 90005).

Goldberg, D. E., & Kerzic, T. (1990). *mGA1.0: A common LISP implementation of a messy genetic algorithm* (TCGA Report No. 90004). Computer program available on various media by request.

Goldberg, D. E., Korb, B., & Deb, K. (1989). *Messy genetic algorithms: Motivation, analysis, and first results* (TCGA Report No. 89003).

Goldberg, D. E., & Rudnick, M. (1990). *Genetic algorithms and the variance of fitness* (TCGA Report No. 90008).

Goldberg, D. E., & Smith, R. E. (1986). *AI meets OR: Blind, inferential search with genetic algorithms* (TCGA Report No. 86002).

Goldberg, D. E., & Thomas, A. L. (1986). *Genetic algorithms: A bibliography 1962—1968* (TCGA Report No. 86001). **NOTE:** A more recent version of this bibliography appears in Goldberg, D. E. (1989). *Genetic Algorithms in Search, Optimization, and Machine Learning*. Addison-Wesley.

Kargupta, H., & Smith, R. E. (1991). *System identification with evolving polynomial networks* (TCGA Report No. 91001).

Karr, C. L. (1990). *Analysis and optimization of an air–injected hydrocyclone* (TCGA Report No. 90001). (Ph.D dissertation).

King, E. G. (1991). *Flow vectoring of supersonic exhaust nozzles using a genetic algorithm to define optimally-shaped contours* (TCGA Report No. 91007). Tuscaloosa: University of Alabama. (Master's Thesis).
